Founder's Note

I'm proud of the growing research community of young scholars, graduate students and working professionals that we are building. This community has already published exceptional papers in indexed peer-reviewed journals and received acceptances to highly selective top ranked universities. As we continue to expand Global R-Hub internationally our commitment to excellence remains steadfast.

Dr. Shivendu S.

About Young Scholar Program

Where Curiosity Becomes Research.

The **Young Scholar Program (YSP)** is a research mentorship program designed exclusively for students in **Grades 6–8**. Under the guidance of experienced PhD mentors, students explore topics they are passionate about, learn the fundamentals of research, and develop a publishable research project, building academic confidence from an early age.

Program Highlights

Expert PhD Mentorship

Learn directly from experienced researchers through personalised 1:1 or collaborative mentorship.

Project-Based Learning

Transform ideas into structured research through a guided four-phase journey.

Global Exposure

Build a strong academic profile with publication support and recognition from global faculty.

Future-Ready Skills

Develop confidence, analytical thinking and communication skills that extend beyond the classroom.
